# MELISSA LUTZ

Web Developer | Operations Analyst

Plano, TX | 303.870.9815 | mlutz121@gmail.com | codeByLissa.com

## PROFESSIONAL SUMMARY

Web developer and operations analyst with 20 years of customer service experience and 10 years of technical troubleshooting in a 24/7 network operations environment. Built and maintain a custom internal tool used in daily operations, and stepped in as acting analyst for several months, including during the closure of the NW-ROC. Holds a Web Developer Certificate and a BA in Web Development, with working knowledge of HTML/CSS/JavaScript, VBA, SQL, and Tableau. Learns new systems quickly, works independently, and communicates clearly with customers, field technicians, and business clients.

## SKILLS & KEY EXPERIENCE

**Web Development:** HTML, CSS, JavaScript (3 yrs); VBA (2 yrs); built and maintain an internal Note tool used in daily operations

**Analysis & Reporting:** Tableau (1.5 yrs); SQL fundamentals (Udemy certificate); Smartsheet; SharePoint (5 yrs); Microsoft Office, all programs (20 yrs)

**Network & Ticketing Systems:** Remedy (8 yrs); CSG, ICOMS, WFX, Scope, Lighthouse, Continuity, Xper Track (5 yrs each)

**Technical Troubleshooting:** 10 years; HFC network surveillance, outage and impairment analysis

**Leadership & Training:** New hire trainer (10 yrs); supervision (2 yrs); LEAD Program graduate

**Customer Service:** 20 years across residential, business, and technician-facing support

## PROFESSIONAL EXPERIENCE

**ROC Specialist I to IV (promoted to IV, September 2024)** **2019 - Present**

*Spectrum at Cox Communications (formerly Charter Communications)*

Monitor the HFC network in a Regional Operations Center to detect outages and impairments, coordinate repair, and limit customer impact. Advanced from Specialist I to 3.5 by completing every available progression step, then promoted to Specialist IV and relocated to one of three new Texas ROCs.

**Analyst and Development Work**

- Designed, built, and maintain the Note tool used in daily ROC operations.
- Served as acting ROC analyst for several months during analyst absence and again at the end of NW-ROC operations before the site closed.
- Contributed to committees that introduced new processes to streamline daily work.
- Completed special projects as assigned.

**Network Operations**

- Analyze HFC alarms and related data to identify outages and basic impairments, then ticket them and generate SROs.
- Track outage events and coax change tickets to resolution; communicate status and escalate using established protocols.
- Route and dispatch maintenance technicians and support field fix agents.
- Complete pre-implementation approval for coax changes, including pre/post snapshots, E911 checks, and service restoration validation.
- Set up IVR call deflection and trouble call blocking for ROC-owned issues.
- Manage line escalations proactively, ensuring a clean ownership handoff and positive customer contact.
- Flag issues needing coordination with groups outside the ROC and collaborate on software and hardware resolution.

**Leadership**

- Official peer support role and supervisor's second in command since promotion to Specialist IV.
- Led the morale committee, planning ROC holiday and annual events.
- Recognition: ROC Star (Aug 2022 - Jul 2023), employee-of-the-month style award; Charter Champion (April 2024), quarterly excellence award; graduate of the LEAD Program.

**Technician 2, Service Assurance, Customer Operations (PRI, BVE, Metro E)** **2016 - 2019**

*Comcast Enterprise*

- Handled inbound calls for Comcast Business Services and troubleshot PRI, BVE, internet, analog phone, and TV issues.
- Scheduled trouble calls and escalated tickets to engineers for investigation.

- Started and processed Change of Service requests in COS 1.5.
- Coached coworkers on Comcast services and processes.
- Tools: CSG, Singleview, Workbench, Don River, Scout, Watchtower, MSP, Broadsoft, Neustar, Stars, Orderpath, BACC, IMS, Remedy.

**Night Foreman** **2015 - 2016**

*King Soopers*

- Supervised customer service and restocking crews on the night shift, scheduling work to meet nightly deadlines.
- Placed product orders, trained employees, and resolved issues across departments.

**Owner** **2011 - 2013**

*Lissa's Little Tykes Child Care, Grand Junction, CO*

- Ran a full-service childcare business for eight children ages 6 months to 12 years, handling scheduling, programming, meals, and transportation.
- Kept parents informed of each child's progress through regular communication.

## EDUCATION & CERTIFICATIONS

- BA, Web Development, Bellview University, March 2026
- Web Developer Certificate, January 2024
- BA, Business Administration / Computer Information Systems, Florida Tech, 2012
- SQL Fundamentals Certificate, Udemy
